CELL-RO BRIDGE
Return Ampoule

Exosome Ampoule Crafted by a Bioengineering Professor with 25 Years of Expertise in Nano-Stem Cell Research

Nano-cell care :
 Return to Your Real Skin

Return Ampoule kit

Premium Skin Barrier Repair Solution

Return Ampoule kit

Precise, Deep Absorption
with Nano-Particles and Micro-Molecules

Multidimensional Skincare

Maximised Synergy through the Optimal Blend of the Finest Ingredients

A High-Concentration Formula Harmonizing a Variety of Ingredients Beyond Focusing on a Single Component

Even the finest ingredients cannot deliver results without a well-balanced formulation. Begin your journey to healthier skin with Return Ampoule, perfected through countless tests and meticulous research!

Suitable for Sensitive Skin

Safe for Sensitive Skin Plant-Based Exosomes + Lyophilized Powder

Plant-based Exosomes

- Derived from natural ingredients, offering a lower risk of side effects compared to animal-derived alternatives
- Minimal allergic reactions, making it **safe for sensitive skin**
- Superior **stability and skin compatibility** compared to animal-derived exosomes

Lyophilized Powder

- Small particles ensure the **stable preservation of exosome ingredients** sensitive to external stimuli
- Inhibits microbial growth and **uses no preservatives**, ensuring safety for sensitive skin
- Maintains active ingredients for **prolonged efficacy**

Multiple growth factors

Cell activation, boost skin regeneration, anti-wrinkle

8 types of hyaluronic acid

Intensive hydration, moisture retention, improves skin elasticity

Centella Asiatica Callus Extracellular Vesicles

Skin regeneration, anti-inflammation, barrier repair

Ultra-low molecular weight Type 1 collagen

Enhances skin elasticity, anti-wrinkle, increases skin density

Idebenone

Antioxidation, anti-aging, protection against UVA

Repairs the Skin Barrier,
Promoting Resilient and Inflammation-Free Skin

Repairs the Skin Barrier with Ultra-tiny Particles for Firm, Resilient Skin

Centella Asiatica Callus Extracellular Vesicles

Engineered with nanometer-sized particles to deliver ingredients deep into the skin

Hydrolyzed Sodium Hyaluronate

Formulated with low-molecular hyaluronic acid for rapid absorption into the deeper layers of the skin

Ultra-low molecular weight Type 1 collagen

Type 1 Collagen, which constitutes over 70% of skin tissue, ensuring rapid absorption into the dermal layer upon application
